### **D** Startup Spotlight

This competition offers entrepreneurs an affordable opportunity to engage with top-tier investors and other important players in the biotech industry to take their business to the next level.

Deadline to apply is **August 29, 2025**

#### Pitching Criteria & Fee

Applications can be submitted by companies that meet the following eligibility criteria:

- Company created in the past three years, or innovation incubated within a company for a maximum of three years
- Developing new therapeutic solutions, technology and digital platforms
- Aggregate funding of €10 million or less
- Company with less than 25 employees

Pitch fee: **EUR 195 \***

\*Qualifying criteria must be met for this rate

The Pitch Fee Includes:

- A complimentary BIO-Europe registration
- A 6-minute pitch slot in the Startup Spotlight session onsite in Vienna, Austria

#### Presenting Details

Selected companies will have the opportunity to make a 6-minute pitch and participate in a live feedback session with a panel of judges of leading investors, pharma dealmakers, and biotech business key opinion leaders who will evaluate the pitches and select the winner onsite in Vienna, Austria.

#### Pitching Benefits:

- Generate interest among the global life science audience attending BIO-Europe.
- Receive direct feedback from the Startup Spotlight judges, representing investors, pharma, and experienced industry executives.
- Access personalized 1:1 coaching with industry expert Simon Fagg during an exclusive onsite training session in Vienna on Monday, November 3rd, 2025.

#### Winner, selected by the judges will receive the following:

- A complimentary registration to attend a future EBD event of their choice
- Access to one digital [EBD Academy](#) course of their choice

## **Presentation tracks category and criteria**

In the application for your company presentation you have to choose in which presentation track you would like to present, the following presentation tracks are available at the BioEurope conference:

### **- Biotech Companies**

### **- Midsize Pharma**

In these two tracks companies can seek partnership for their products, initiate strategic alliances and tap into the global financing network.

### **-Next generation Biotech companies**

This track is the most direct way for early stage projects and small entrepreneurial companies to get their innovative asset or idea directly in front of potential partners.

Companies to be considered for Next Generation Presentation need to meet the following criteria:

- Created in the past three years
- Fewer than 20 employees
- Developing new therapeutic products or offering an innovative service

### **-Academic Innovators**

Academic researchers and technology transfer offices can apply to present their asset or idea to funding and development partners.
